INTRODUCTION

The Summary of Airport Charges provides information on fees and charges established and levied by the Airport Commission for the use of the San Francisco International Airport. This booklet provides airlines, aviation support service providers, transportation operators, and other tenants with a description of the charges to which they may be subject. This booklet will also serve Airport staff as a comprehensive reference document by assembling in one source the rates, terms, effective dates, and references to the authorizing resolutions of the major charges currently in place.

While the Summary of Airport Charges attempts to describe current rates for the major charges established and levied by the Airport Commission, it is not intended to be all-inclusive. Many Airport Commission charges are incorporated in tenant leases that are fixed until renegotiated or adjusted periodically, in accordance with specific lease terms.

The language used in this booklet to describe the various fees and charges is intended to be informative only. It is not intended to provide definitions and terms for each fee type that would carry the weight of law. The Airport Commission and the City of San Francisco may not be held liable for an interpretation of charges based on this booklet. For a legal definition, please consult the resolutions referenced in the table on page 16.

Fees, charges, and rates may change at any time without notice and may have changed since the publication of this booklet.
AIRFIELD AREA CHARGES

Aircraft Landing Fees

I. Rate per 1,000 pounds of approved maximum landing weight:

1. Scheduled Aircraft with permit to operate at Airport = $3.00 per thousand pounds.

2. General Aviation and Itinerant Aircraft (those without a permit to operate at the Airport):

   Base rate $3.00 per thousand pounds
   Supplemental rate $0.30
   Total rate $3.30 per thousand pounds

II. Minimum Landing Fees:

All aircraft are subject to a minimum landing fee. They will pay the greater of the minimum landing fee or a fee based on the total weight of the aircraft calculated at the rate per 1,000 pounds. The breakeven weight is the weight at which the minimum fee is equal to the landing fee calculated at the rate per 1,000 pounds. Minimum landing fees and breakeven weights for each type of aircraft are given below.

AIRPORT SUPPORT AREA CHARGES

Cargo Handling Space

Rental rates for cargo handling space vary according to the type of space, as follows:

TERMINAL AREA CHARGES

Airline Terminal Rental Rates

I. Exclusive Use Space:

The rental rate of exclusive use space varies by category of space.

<table>
<thead>
<tr>
<th>Category</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>Ticket counters and hold rooms</td>
</tr>
<tr>
<td>II</td>

</tr>
<tr>
<td>IV</td>
<td>Inbound/outbound baggage handling areas, baggage transfer areas, and equipment rooms.</td>
</tr>
<tr>
<td>V</td>
<td>Unenclosed or covered areas at ramp level.</td>
</tr>
</tbody>
</table>

When non-airline terminal rental revenue together with the Groundside surplus or deficit is insufficient to cover the cost of the terminal area public space, a surcharge is added to the airline base terminal rental rate so that 50% of the net cost will be paid from airline terminal rentals (the other 50% is paid through a landing fee surcharge).

The annual rental rates by category of space are:

<table>
<thead>
<tr>
<th>Space Category</th>
<th>Total Rate Per Sq. Ft.</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>$167.32</td>

</tr>
<tr>
<td>IV</td>
<td>41.83</td>
</tr>
<tr>
<td>V</td>
<td>16.73</td>
</tr>
</tbody>
</table>
II. Joint Use Space:

Airlines sharing space leased to more than one scheduled airline pay rent according to a joint use formula, summarized as follows:

1. Applicable total charges are based on the five categories of rental space defined herein under Airline Terminal Rental Rates, Section I, Exclusive Use Space.

2. Twenty percent (20%) of the applicable total charges for joint use space (rent plus any other charges) is divided equally among the airlines that use the space.

3. The remaining eighty percent (80%) of applicable total charges is divided among those Signatory airlines using the space based on each user airline's share of enplaning (and/or deplaning, as appropriate) passengers proportionate to the total number of enplaning (and/or deplaning, as appropriate) passengers during the prior fiscal year. If prior year passenger statistics constitute an inappropriate basis for forecasting passenger volume, the Airport Commission may consider a change in the allocation basis.

4. Charter operators, seasonal carriers, and those airlines that are exclusively handled by Signatory carriers will be billed through the sponsoring Signatory airlines.

III. Turn Fee – Domestic Airline Operating in International Terminal:

<tr>

</tr>
</tbody>
</table>

2 Tiers based on number of turns in a calendar month. The rate for each tier is paid for the number of turns in that tier, e.g., the first 100 turns in a month are charged at $577 per turn, turns 101 – 250 are charged at $514 per turn, etc.
IV. Jet Bridge Rental Rate:

The rental fee for carriers using Airport-owned jet bridges will be $25.00 per aircraft operation (aircraft arrival and departure).

Security Fees

1. Fee for Airport-wide security costs, as well as costs associated with improvements in checkpoint security, modification of space for EDS baggage inspection, video surveillance improvements, perimeter control fencing, and checkpoint modifications are billed on a monthly basis. The cost is prorated to each airline on the basis of the number of passengers enplaned in that month.

In FY 2008/09, the Security Fee is $0.15 per enplaned passenger.

2. Fees for security identification badges, fingerprinting services, and vehicle permits are established as follows:

- New Badge (valid for two years) $75

Customs Cargo Facility – Annual Airline Fee

This is an annual fee to be collected from airlines using the United States Customs Service (USCS) on-airport facility for clearance of international cargo shipments into the United States. The amount of the fee will be determined annually to cover facility rent and recovery of the Airport’s tenant-improvement costs and operating and maintenance costs associated with housing this function in West Field Cargo Building I. The Customs Cargo Facility fee will be billed monthly to each airline based on its pro-rata share of USCS transaction data reported to the Airport by USCS.
